DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see paragraph 2 of page 8 through paragraph 2 of page 10, filed 28 March 2007, with respect to the rejection of claims 1-13 and 15-20 under 35 U.S.C. §103(a) as being unpatentable over Gauglitz'990 in view of Wang'278 have been fully considered and are persuasive. The §103 rejection of claims 1-13 and 15-20 has been withdrawn.

Allowable Subject Matter

2. Claims 1-21 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The claims of the instant application are allowable over the most pertinent prior art of record for at least the reason that the prior art, alone or in combination, fails to teach assigning a first and second pacing pulse to a location within the atrium and ventricle based on the polarity of the sensed pacing signals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
